

## *About Us*

Set up in April of 2002, the company swiftly began to build a reputation for providing a reliable, quality service and one that grew with every event. In the following 3 years we had become known for offering a new alternative to the standard. Gone was the usual array of holiday camp songs, to be replaced with a more discerning sound. Our aim is to provide top quality entertainment through professionalism and experience in addition to value for money, whilst keeping all the fun of a great party.

iMusic is quickly building a reputation for providing top quality, high end mobile entertainment. From a new generation of mobile DJ's offering a refreshingly pleasant service, aimed at bringing back the quality and respectability that has been missing in recent years.

All the equipment used is of a very high standard, with any faulty or problematic items either repaired or replaced without delay. Sound quality is attained through state of the art players, mixers, amplification & loudspeakers. Careful balance of the controls results in a crisp even sound throughout the room. All of the traditional sound problems are avoided through the very latest technology with the knowledge to use them effectively.

Lighting consists of a mixture of 'wash' and 'feature' light. The combination of these effects produces an impressive light show. Incorporating the latest DMX control system, the show comes alive, responding to every aspect of the music. All equipment is PAT tested for safety.

In order to help ensure that you and your guests get the most out of the night, requests are encouraged and played on the night. Covering most genres of music and with a comprehensive up-to-date collection, we can cover at least 90% of requests and do so on a regular basis.

Every DJ that works for us has either been trained from scratch or approved by myself personally. This means that you will get the same high level of service regardless of who is assigned to your party, whilst individual personalities are left to come through. Delivered in a clear tone, talk over the microphone is kept to a minimum. Whilst aggressive and obscene remarks are never made, crowd encouragement and bar calls for instance is all you are likely to hear. All our DJ's are smartly dressed, polite and have a wealth of knowledge and experience in a variety of functions and music genres. This allows them to adapt to the situation on the dance floor at any given time.

# *Your Personalised Wedding Service*

**“.....GETTING MARRIED IS ONE OF THE MOST STRESSFUL THINGS A PERSON CAN DO.....”**

At iMusic we understand this and that it's usually the smallest details that make all the difference. With this in mind we have put together a number of self contained packages to cover a broad range from the basic to the absolute. Detailed below are the major elements that make up our packages.

## **DAY RECEPTION**

Designed for use during your day reception, a choice of PA services is available. Using digital media, the system can play many hours of uninterrupted background music. Self monitoring systems allow you to relax in the knowledge that the music will stay in the background as intended, with sound engineers available to manually adjust the system where necessary. This is especially useful when it comes to the speeches. Your engineer will be on hand to monitor the controls, allowing you to concentrate on what's important. We intend this service to be as discreet as possible and therefore ensure the system is set up out of view. The speakers are positioned to be as inconspicuous as possible, providing you with sufficient sound but with minimal obstruction.

## **EVENING RECEPTION**

Our most popular service is professional disco hire. Experienced DJ's, quality equipment and an extensive CD collection come together to bring you a night filled with fun and excitement. Your DJ will bring together all your requests with key tracks to keep the dance floor full. Further information is available under the services section of our website at [www.imusicuk.com](http://www.imusicuk.com).

iMusic is proud to offer a personalised, face-to-face wedding service to help guide you through your options. Once you have decided on your package please call 0845 430 9405 to arrange an appointment. This is your chance to meet us and discuss your requirements in detail, allowing us to tailor your package to suit.

The end result is a service perfect for you & your big day, all arranged from the comfort of your own home.

## **OPTIONS LIST**

Supporting our main line of services, our options list contains essential finishing touches for your event. Including a choice of Live Acts, Fireworks, Chocolate Fountains, HQ Marquee Hire and much more. All are provided by our trusted & preferred partners. Profiles are available for each of our services both online at [www.imusicuk.com](http://www.imusicuk.com) or by contacting our office.
